

GROUP TRAVEL SUPER-APP

# Plan trips together. Travel as one.

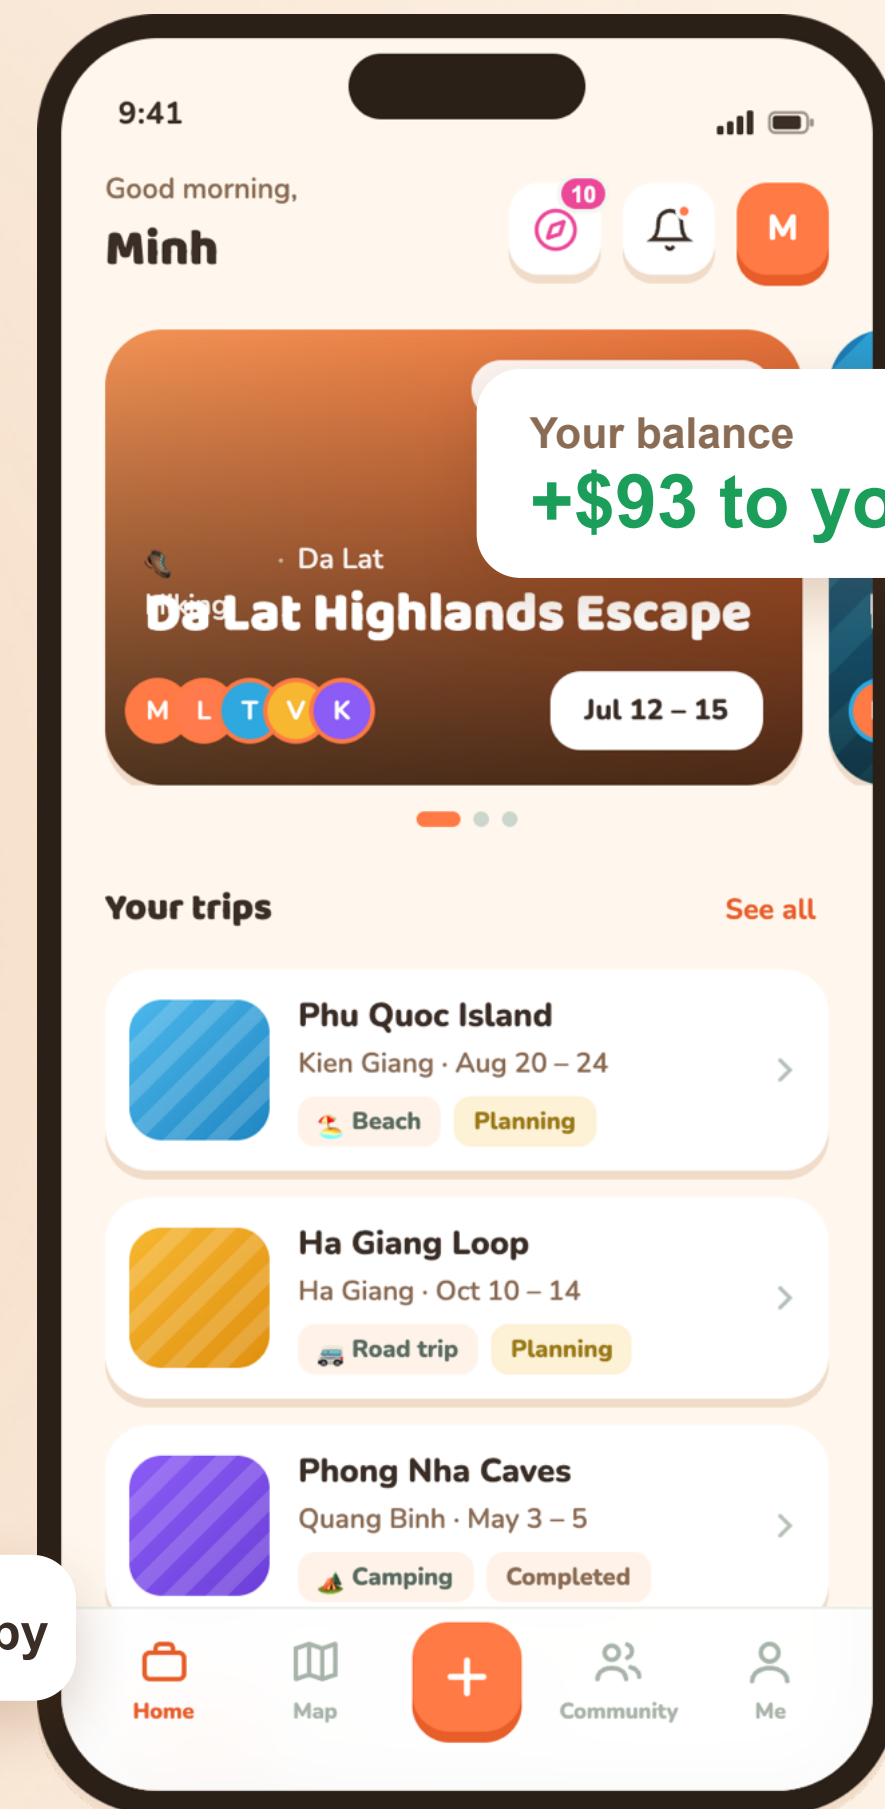

One app for the whole crew — itinerary, live map, split money and shared memories, wrapped in a warm, gummy design.

 iOS & Android

WHAT IS COTRIPS

# A shared home for every trip your group takes

From the first "should we go?" to the photos you laugh at months later — CoTrips holds the whole journey in one place.

## Plan

Drag-and-drop itinerary, tasks and roles, polls and group chat — decided together.

## Travel

Live map, meetup points and safe zones, SOS, split money and nearby suggestions on the go.

## Remember

A shared memory timeline, personal scrapbook and a public community to share it all.

## THE PROBLEM

# One trip, scattered across ten apps

Chat here, spreadsheet there, a map link in a third place. Plans drift, money gets awkward, and someone always wanders off.

### Plans buried in chat

The itinerary is 400 messages deep.

### Who paid what?

Splitting money ruins the vibe.

### Lost the group

No idea where anyone is right now.

### Memories everywhere

Photos spread across ten camera rolls.

WHO IT'S FOR

# Built for every kind of crew

## Friends

Weekend getaways and spontaneous road trips.

## Families

Keep kids and grandparents in the loop and in sight.

## Tour guides

Manage a group, share the plan, account for everyone.

## Trekking crews

Safe zones, SOS and battery levels off the grid.

 Beach ·  Hiking ·  Camping ·  Road trip ·  City break ·  Food tour

## DESIGN LANGUAGE

# Familys — a gummy candy look

Warm, round and friendly. Flat offset shadows give every card and button a soft "gummy" pop, with generous corner radii throughout.

### COLOR

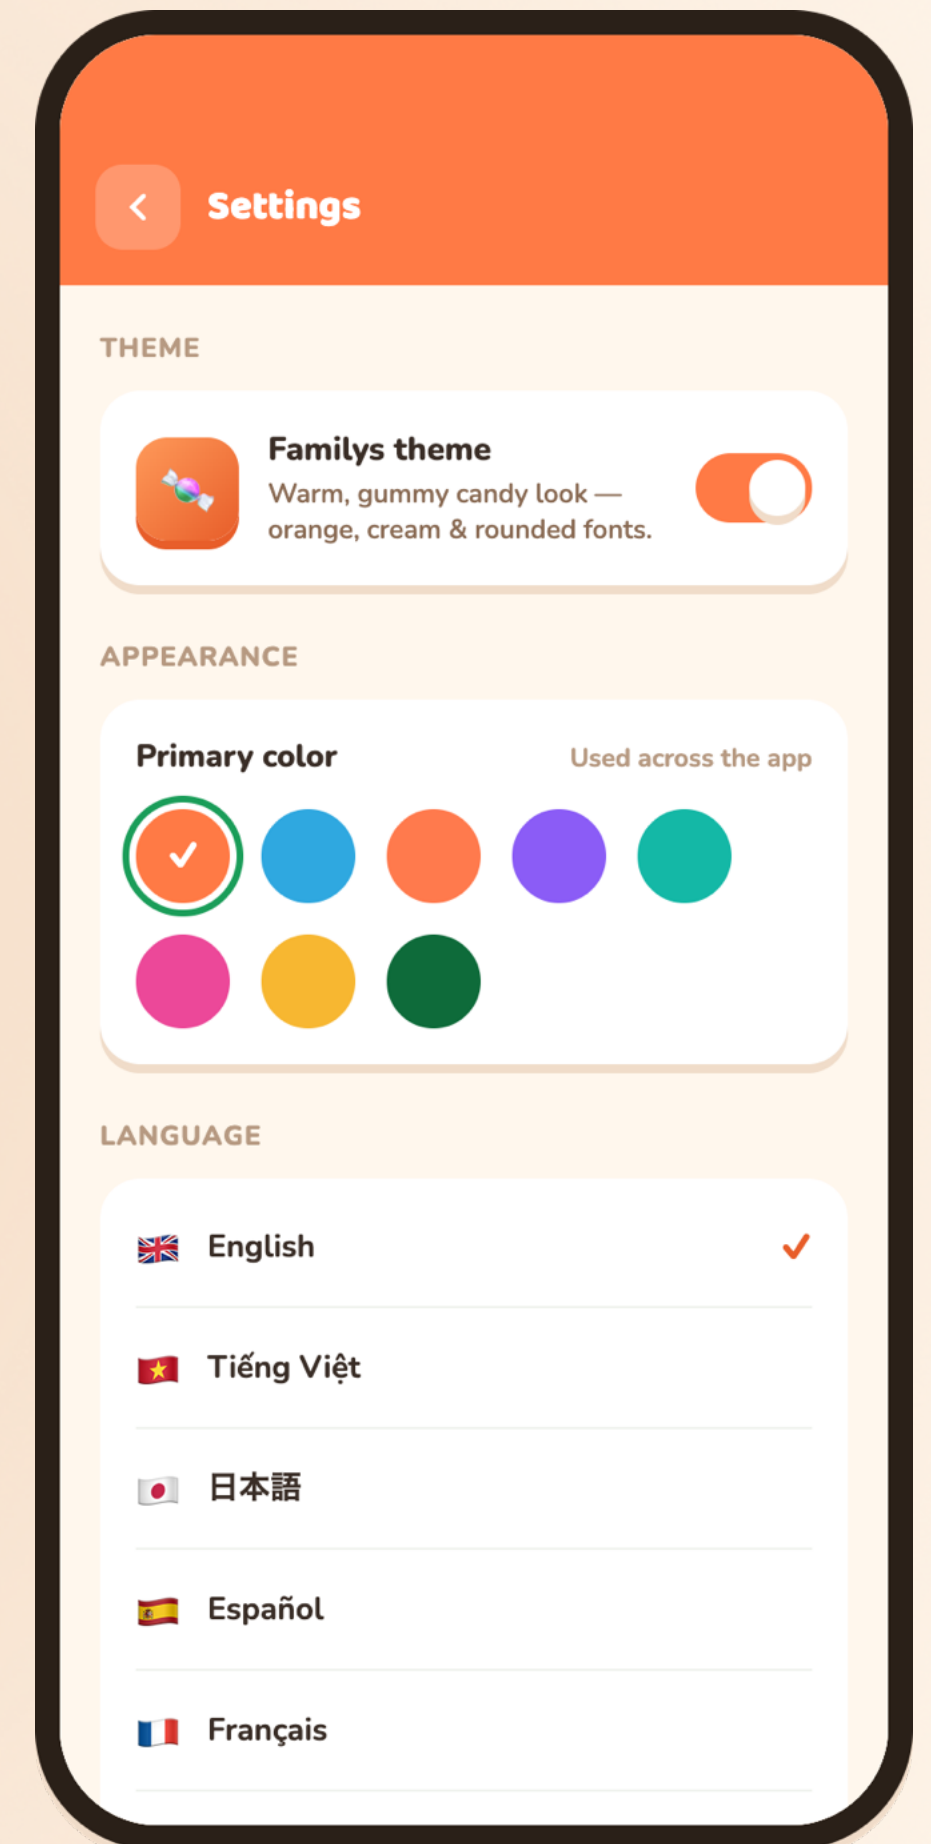

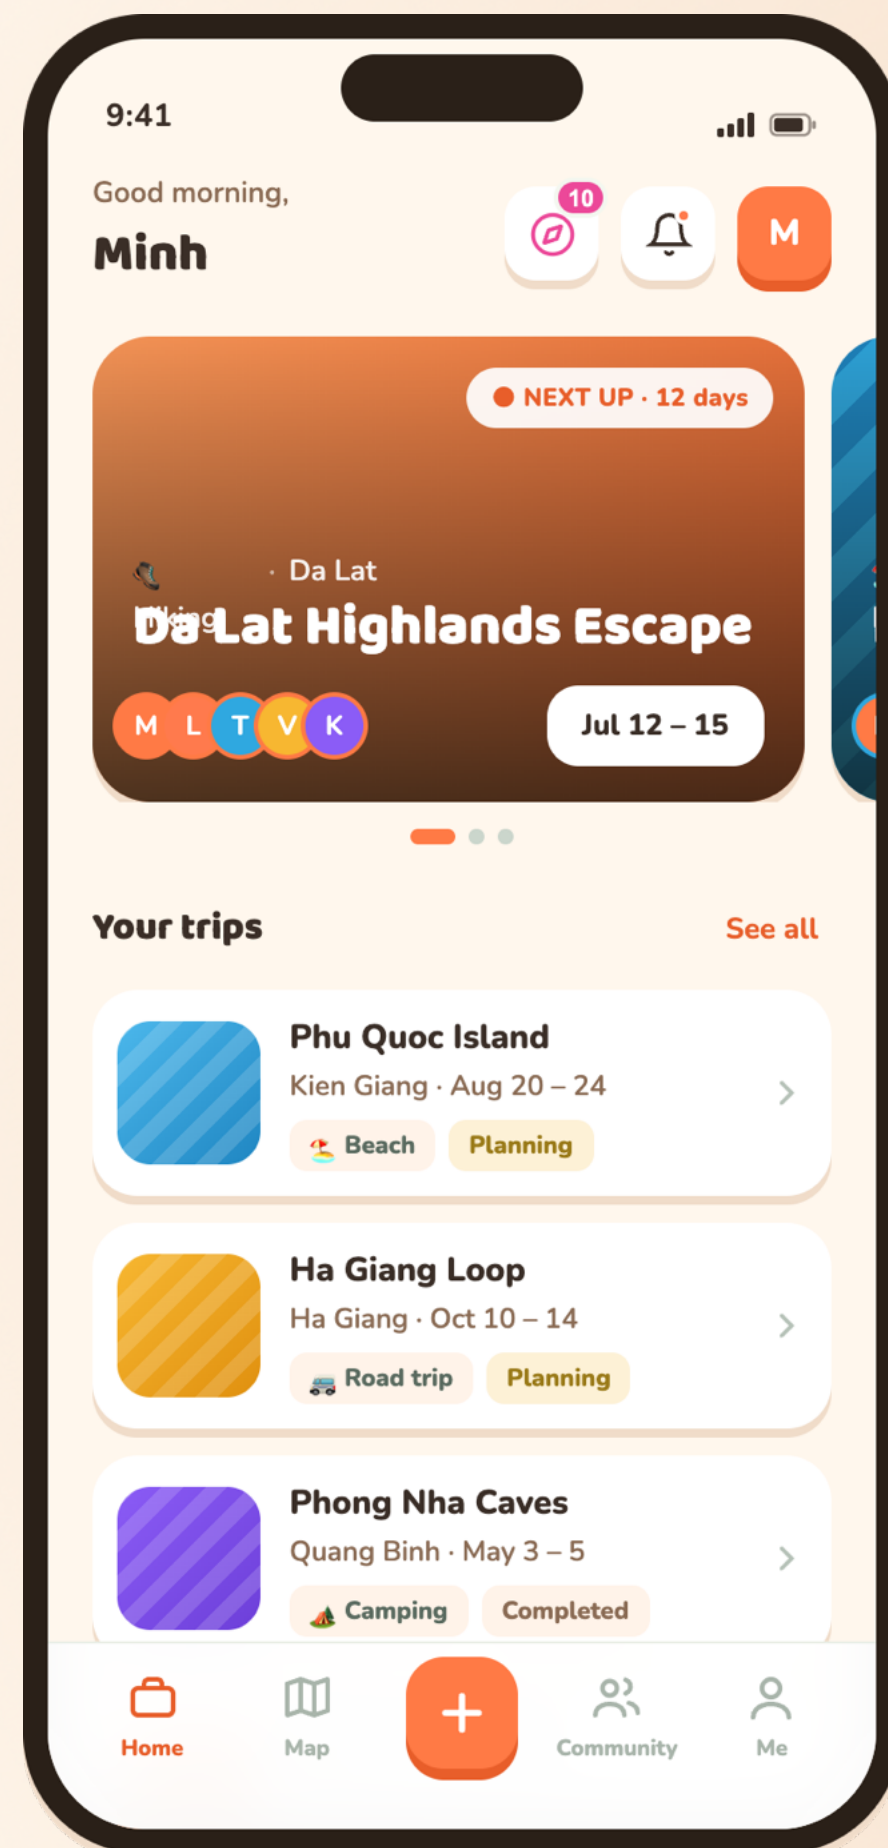

### DISPLAY

**Baloo 2**

### BODY / UI

**Nunito**

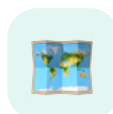

## THE APP AT A GLANCE

# Everything, one thumb away

A simple five-tab home base. The glowing center button starts a new trip from scratch, a clone, a shared template, or a QR scan.

**Home** — upcoming trips, carousel & daily discovery

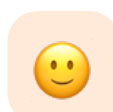

**Map** — trip history with time-coded pins

**Create** — new trip, clone, template or scan-to-join

**Community** — shared memories & trips

**Me** — profile, friends, journeys & settings

# A living, shared itinerary

Build the trip day by day. Everyone edits the same plan — drag stops to reorder, check in as you arrive.

## Drag to reorder

Reshuffle the day in seconds — color-coded by type.

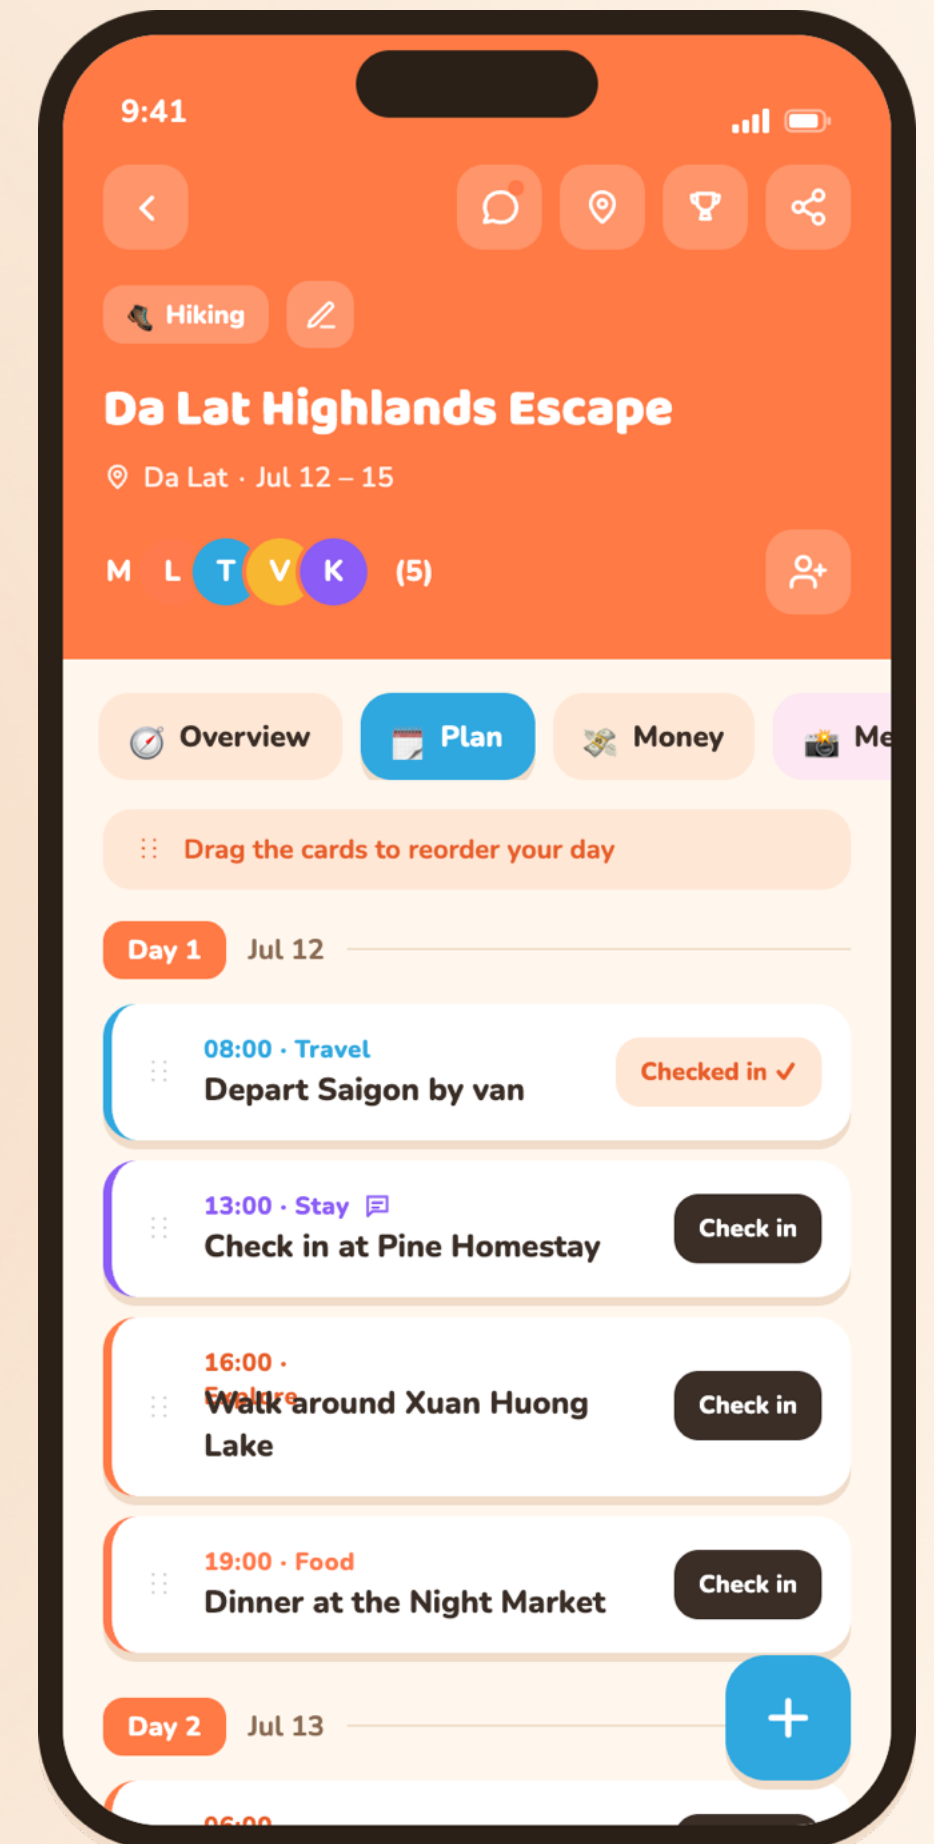

## Check in on arrival

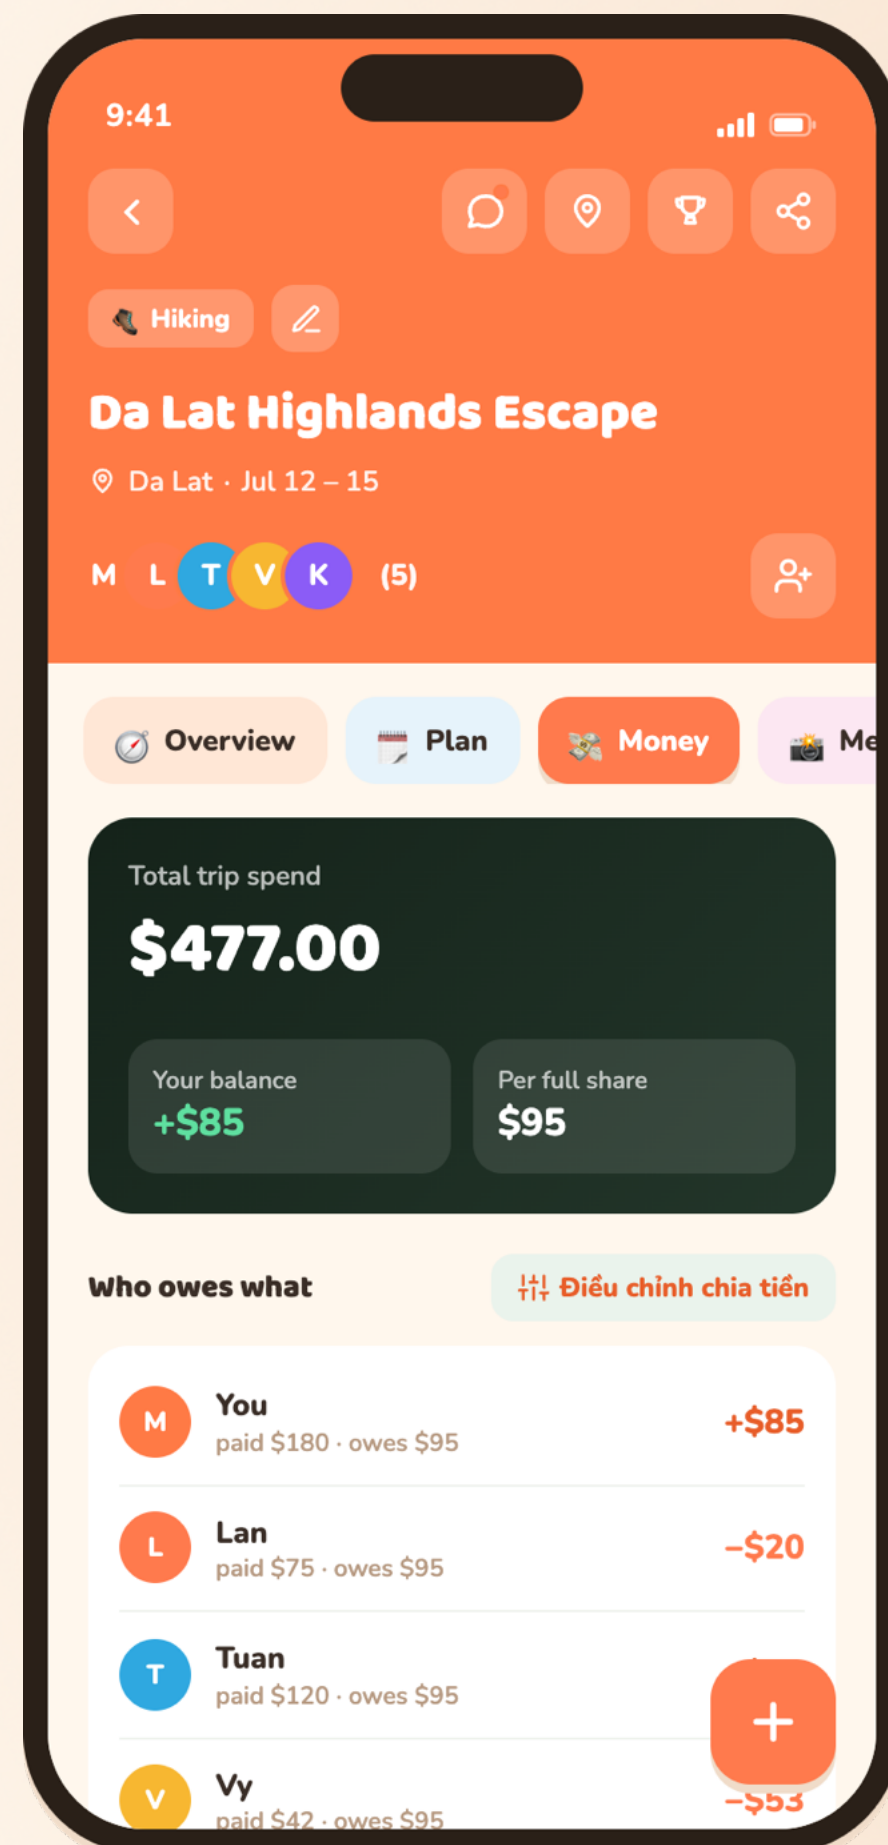

One tap marks a stop done for the whole crew.

## Notes, tasks & roles

Assign who does what, with optional deadlines.

## 02 · SPLIT MONEY

# Fair splits, zero awkwardness

See total spend and exactly what you owe or are owed. Add an expense with a photo receipt and category.

### Balances at a glance

"paid \$X · owes \$Y" per person, always summing to zero.

### Flexible discounts

Give anyone -25%, -50% or free — the rest auto-rebalances.

### Spend by category

A donut chart breaks down where the money went.

# Nobody gets left behind

A shared live map keeps the whole crew visible — with the safety tools trekking and family groups actually need.

## One-tap SOS

Alert everyone with your location.

## Safe zones

Geofence alerts when someone strays.

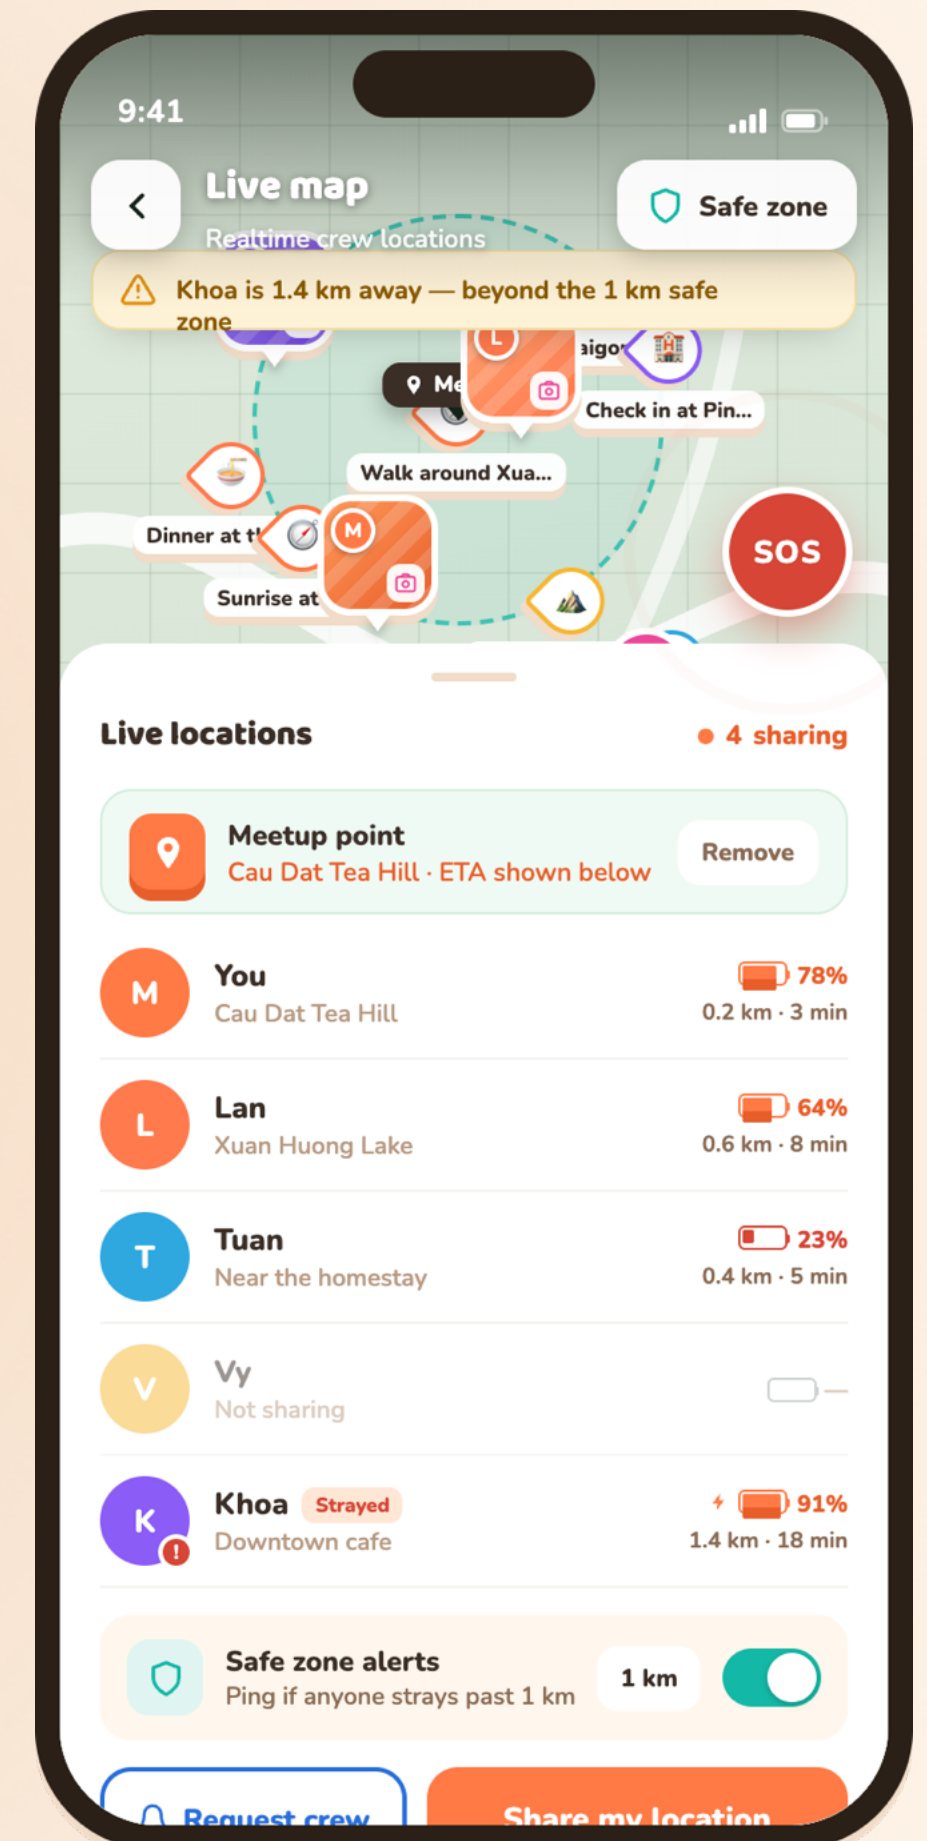

## Battery & ETA

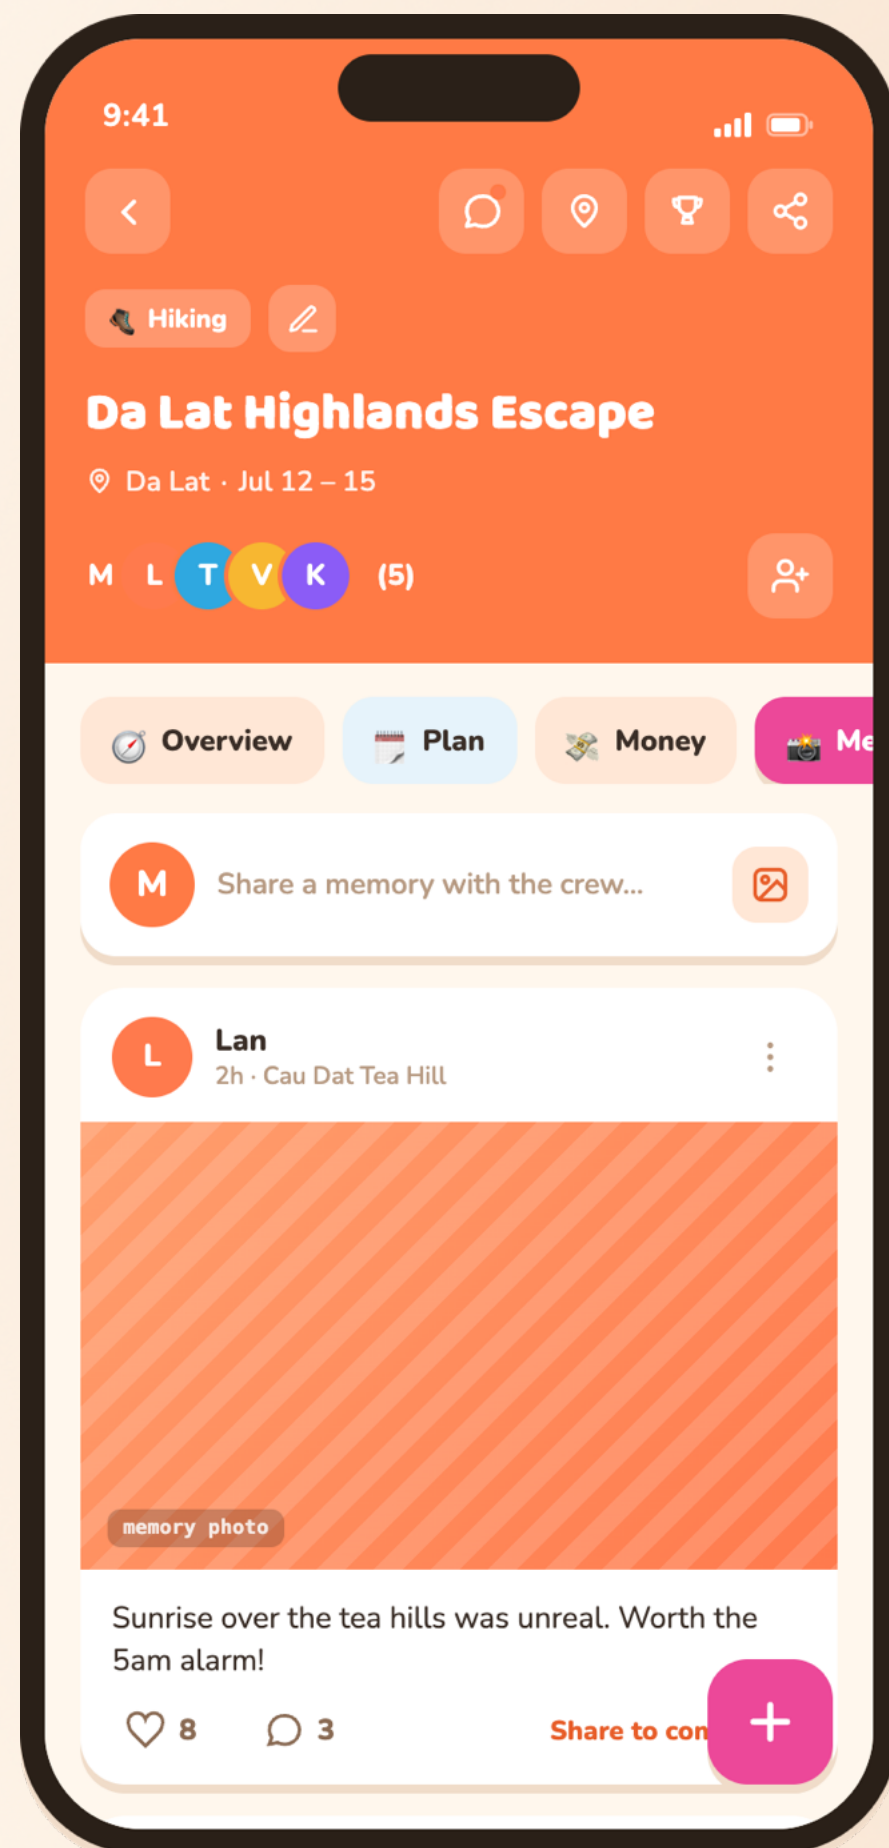

See who's low and how far to the meetup.

## Medical card

Blood type & allergies for emergencies.

## 04 · MEMORIES

# One timeline for the whole trip

Everyone drops photos and moments into a shared feed — no more chasing ten different camera rolls.

### Like & comment

Relive the trip together in one feed.

### Geotagged

Pins on the map show exactly where each shot was taken.

### My journeys

Your own scrapbook builds itself as you go.

05 · DISCOVER NEARBY

# Great spots around the trip

A shared shortlist of places worth a stop — everyone can add, filter and open full details.

Food

Market

Parks

Stays

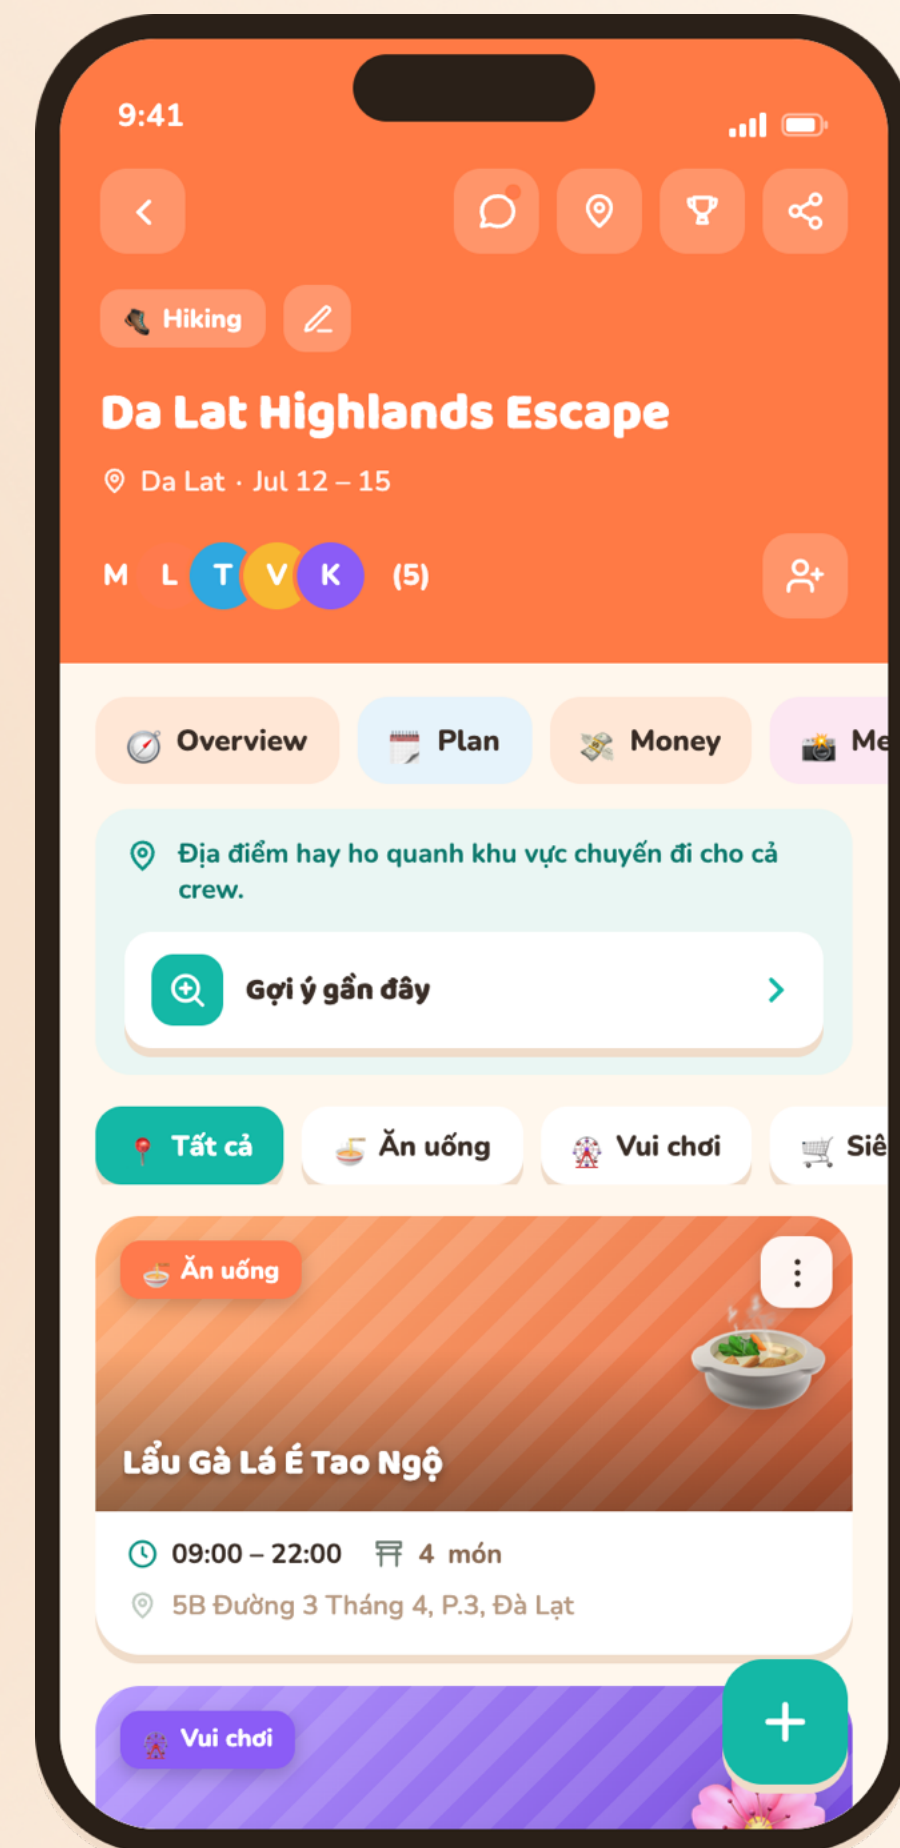

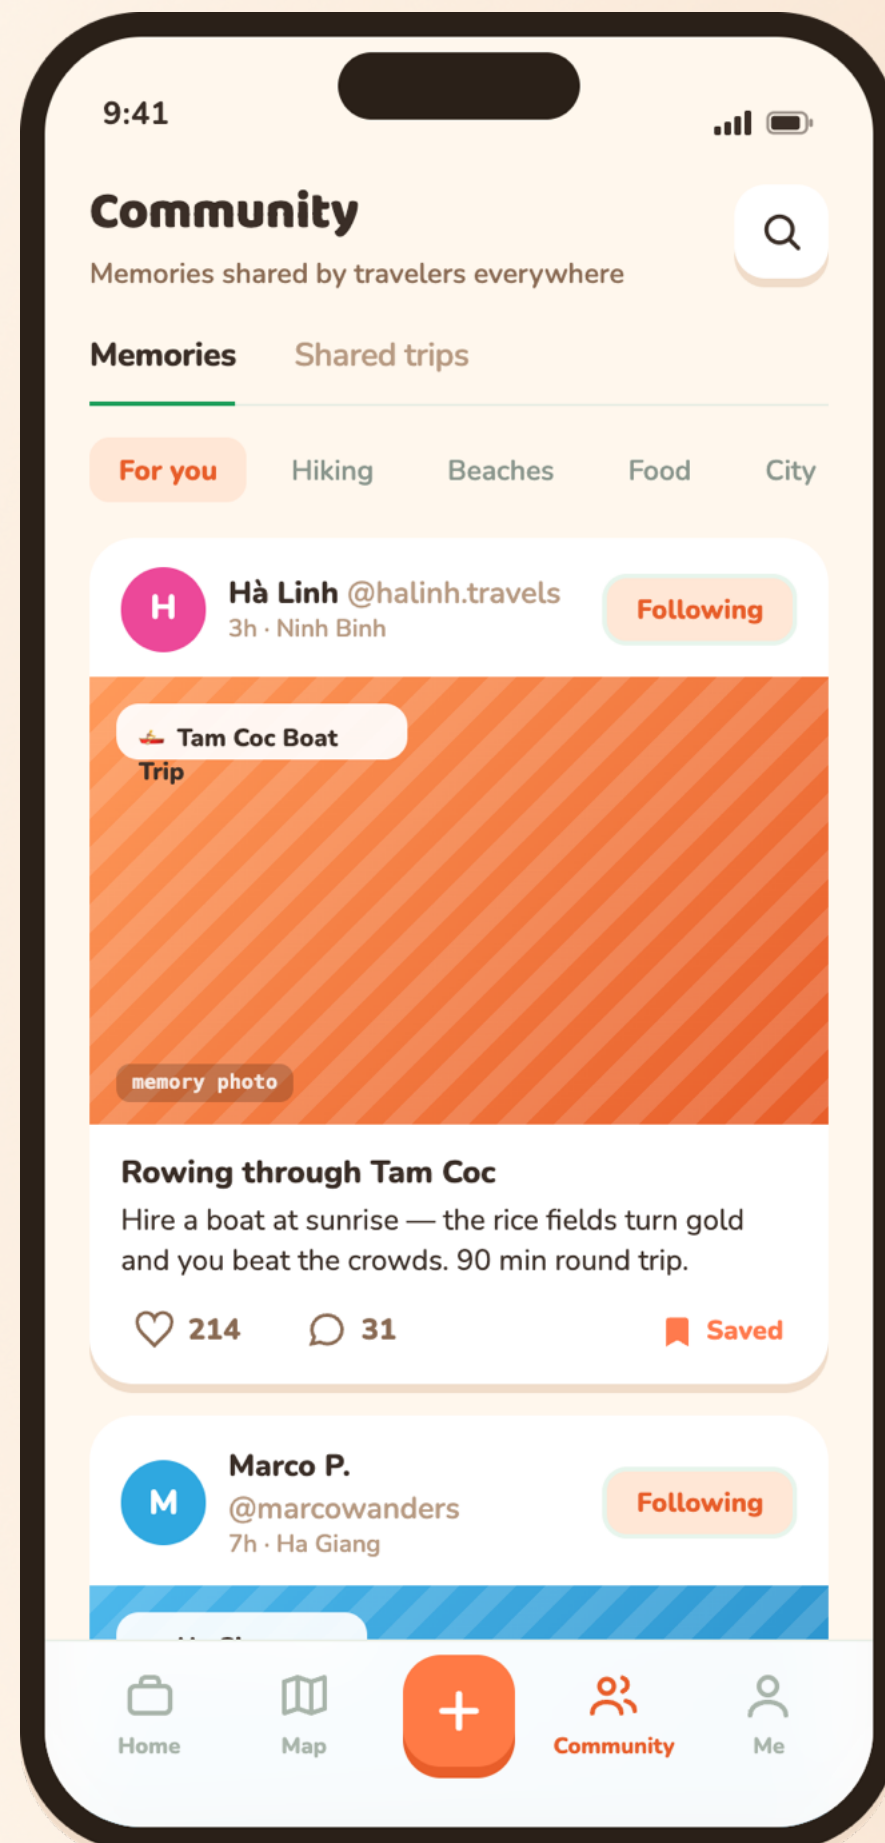

Parking

## Smart suggestions

Pull ~30 nearby places from the server and import in bulk.

## 06 · COMMUNITY

# Get inspired, then borrow the plan

A public feed of memories and shared trips from travelers everywhere — a place to discover ideas and reuse great itineraries.

### Save & clone trips

Turn any shared trip into your own with one tap.

### Private by design

Only the plan is shared — names & costs stay hidden.

### Follow & search

Find people and memories by place, food or vibe.

# Decide as a group, right in the chat

Crew chat keeps the conversation and the decisions in the same place.

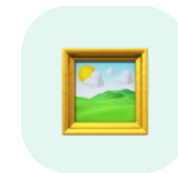

## Live polls

Managers start a poll; results update live inside the bubble.

## Voice-to-text

Dictate a message hands-free while you're moving.

## Photos & emoji

Share pictures and react without leaving the thread.

## Announcements

Manager-only notes pinned to the top of the trip.

# Your travel identity

Interests, stats and a scrapbook of past journeys — plus the tools to manage who you travel with.

## Manage friends

Grouped by Family, Friends, Company... drag to organize.

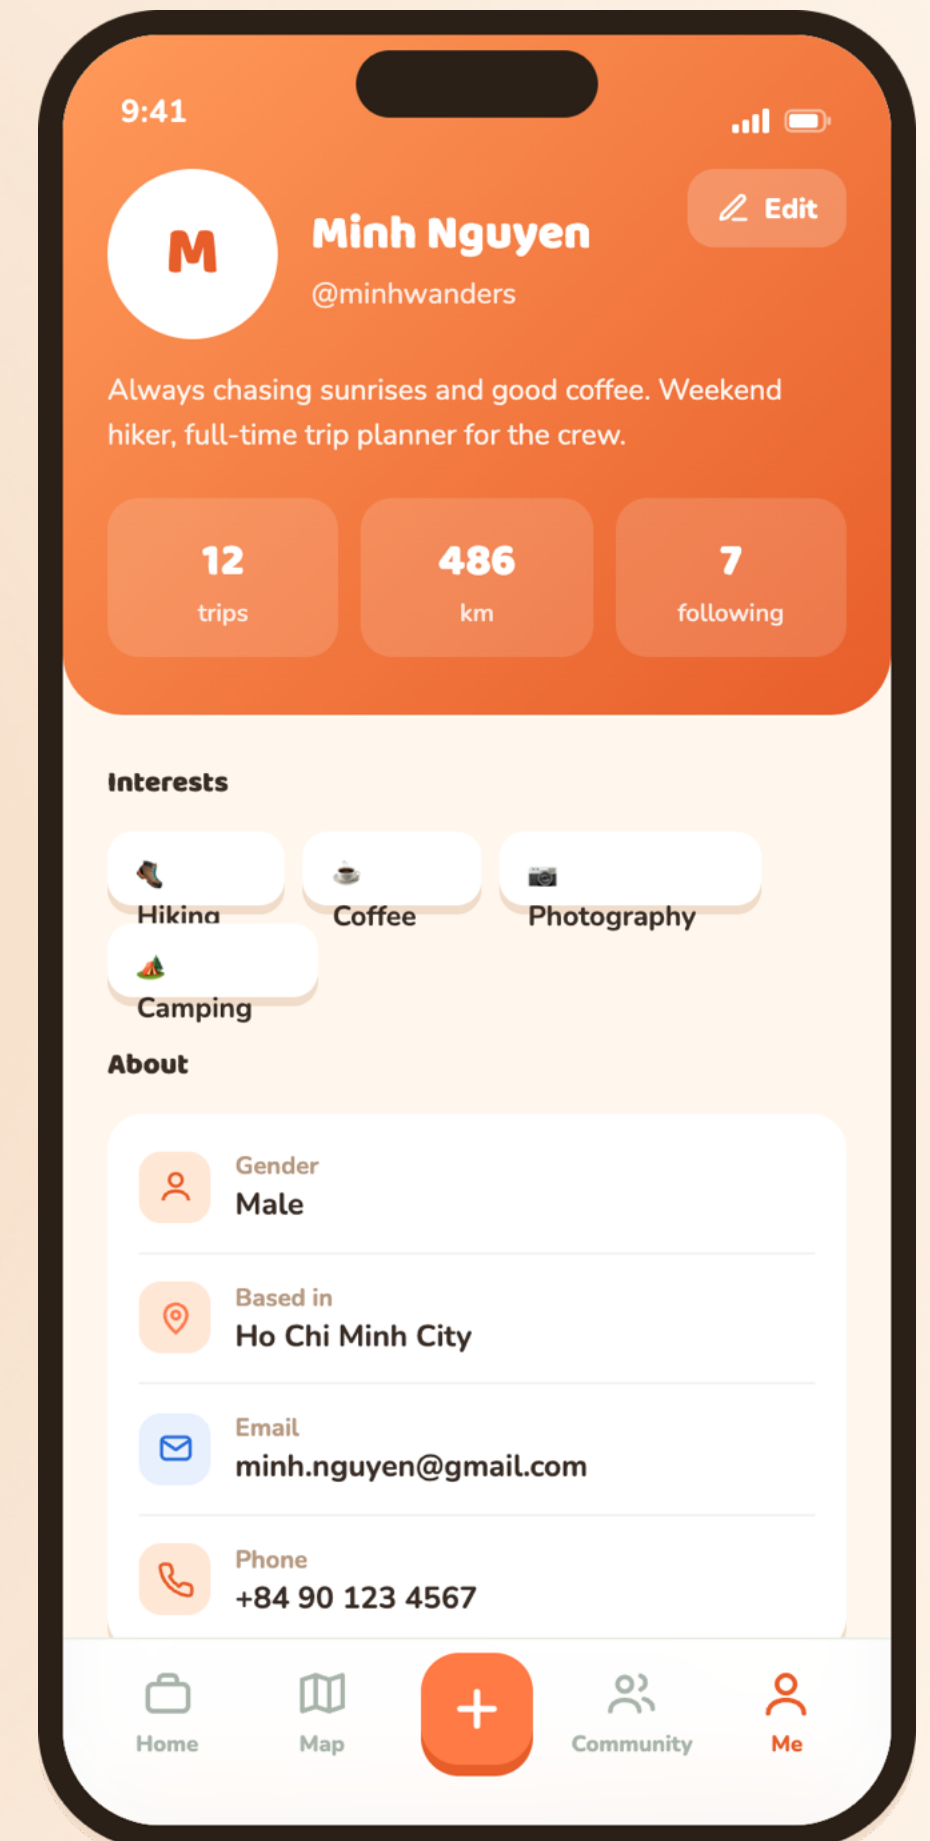

## Emergency medical card

Private by default — visible to your trip manager only.

## My activity

Steps, distance & energy via Health Connect — read-only.

ONE TRIP, THREE MOODS

# The trip hub changes with the journey

The Overview screen reshapes itself around where you are in the trip.

BEFORE

 **Upcoming**

A live countdown to departure and a pre-trip prep checklist to tick off together.

DURING

 **Happening**

Day X of Y, who's sharing location, your tasks, balance and the meetup point — at a glance.

AFTER

 **Wrapped**

Group emoji reactions with confetti, and a one-tap "run it again" to clone the trip.

MORE & LATEST

# There's a lot more in the box

## Discovery Contes NEW

Hunt for location "stamps" and climb the crew leaderboard.

## Health & activity

A personal steps, distance and energy dashboard via Health Connect.

## Social sharing

Publish a trip page and share to Facebook, LINE & Instagram.

## Multi-language

English, Tiếng Việt, 日本語, Español, Français, ไทย and more ...

SAFETY & PRIVACY FIRST

# You choose what to share, and for how long

## Time-boxed

Location sharing auto-expires after 60 minutes per session.

## Manager-only

Emergency medical info is private and never shown to peers.

## Read-only health

Health Connect is foreground & read-only — Play-compliant.

BEYOND THE APP

# On the web, too

The product reaches beyond mobile — same warm identity, wider surface.

## Landing page

A responsive marketing site — features, safety, a live shared-trip feed and FAQ — to get the crew to download.

## Public trip pages

Share a trip and CoTrips generates a clean public page — cover, itinerary and memories, with a "clone this trip" call to action.

# Plan together. Travel as one.

One warm, gummy app for the whole crew — before, during and after every trip.
